

EHA-SWG Scientific Meeting

Bleeding and Platelet Disorders: Advances in Pathology, Diagnosis, and Management

Submit your abstract before December 21, 2025, 23:59 (CET)

Meeting chairs:

- Giancarlo Castaman
- Paolo Gresele

Meeting Topics:

The meeting will cover the following topics:

- Pathophysiology of congenital and acquired bleeding and platelet disorders
- Laboratory diagnosis of bleeding disorders
- Innovative genetic analysis techniques
- Clinical and laboratory approaches to rare coagulation disorders
- Real-life problems of people with bleeding disorders
- The creation and implementation of registries for rare bleeding disorders
- Gene therapy and innovative treatments

 April 9-11, 2026

 Florence, Italy

Why attend?

The meeting will cover the latest updates in congenital and acquired bleeding and platelet disorders. With innovative and landscape-changing therapeutic approaches being developed over the past few years, this meeting is an opportunity to catch up on new standards of care, pathogenic mechanisms, and diagnosis.

Abstract submission will form a core focus of the program with presentations of translational research on novel pathophysiological mechanisms and cutting-edge laboratory methods for the clinical management of these conditions.
